To Whom it May Concern,

Barnstormers Biplane Rides has been operating from Chino Airport since 2017, offering scenic flights under FAR part 91-147 with a letter of authorization from the FAA.

Below is a list of facts/reasons why I would like to operate my business at Corona Airport and why I am an asset to the airport community.

1. I currently maintain hangar 1931 at Corona Airport.
2. I hold a current valid Business License with the City of Corona.
3. Flying is my passion and I want to share this with others.
4. Flights have averaged 2 to 3 per day.
5. Close to 5000 passengers flown since 2017.
6. These flights have inspired many people to take flight lessons and become pilots themselves.
7. Many kids and adults have taken their first flight in this amazing plane.
8. I have donated many flights for museums and flown kids from the Civil Air Patrol.
9. I attract customers to the airport to enjoy the restaurant.
10. I purchase fuel from the airport fuel station.
11. I have displayed the plane for charity events.
12. The plane helps draw people's interest in aviation.
13. I encourage others to become part of the aviation community.

Thank you for your consideration. I look forward to the opportunity to operating Barnstormers Biplane Rides out of Corona Airport.

Keith Kossuth
