EXHIBIT "A"
SCOPE OF SERVICES

A. CONTRACTOR REQUIREMENTS

1. Contractor shall provide equipment, labor/installation and removal services as ordered by the City for all vehicles for the City of Corona. The Contractor shall provide product usage reports to satisfactorily support the city. The city shall order products that are identified as approved items that are listed in the Vehicle Equipment and Parts Buildout List.

- A. The City shall have the Contractor build patrol, stealth, and plain vehicles to be determined by the City.
- B. The Contractor shall be responsible for providing the product inventory's, manpower resources, and/or production equipment.
- C. The City may evaluate other possible patrol vehicles at the discretion of the City.

2. The City will order "specialty vehicles" during the year that may include but not limited to Patrol K-9 adaptations, forensic trucks, bomb squad vehicles, SERT vehicles (City's emergency response team), S.E.B. Vehicles (Special Enforcement Bureau/SWAT), correction transportation vehicles and coroner vehicles.

3. The "specialty vehicles" are custom built by the Contractor, and these specialty vehicles may vary from vehicle to vehicle depending on what type of equipment is needed by the City. There is no definitive specification book associated with these types of specialty vehicles because of the constant changes in the equipment requirements.

4. The Contractor shall strip a combination of patrol, stealth, and plain vehicles. the Contractor shall remotely strip non-drivable vehicles (out of service & collision totals) at the Contractors location 1616 Marlborough Ave., Unit S-1, Riverside, CA.

5. Vehicle strips may include, but not limited to, the removal of:
- a. all emergency lighting equipment and siren
 - b. police radio, scanner, and mobile data computer
 - c. Partition cages or K-9 kennels
 - d. All gun racks
 - e. Metal trunk boxes and trays
 - f. Fire extinguisher
 - g. Rear plastic seat and seat belts

6. The City shall have the best pricing, based on the economies of scale, for those items specifically identified in the Vehicle Equipment and Parts Buildout List.

7. The City shall deliver and shall have "will-call" delivery product inventory as needed for the City.

8. Pricing will be all inclusive of any vendor vehicle pick-up or delivery fees, should the City's personnel not be able to provide that service.

9. The Contractor shall provide a unit price for the individual products as noted in the Vehicle Equipment and Parts Buildout List and extend those prices to the vehicle type as specified. The City requires that any substitutions shall undergo prior review and written approval by the City.

a. Special Equipment:

i. The Contractor shall make the necessary commitment to provide equipment and trained personnel, at the Contractor's location, to support the volume of vehicles the City requires to maintain its operations and fleet levels.

ii. The Contractor shall be required to have access to a custom fabrication shop that would allow for the many and various vehicle builds and subsequent installations that arise from various needs and specialty configurations of the department.

iii. The Contractor shall have made or have made a "one-piece electrical wiring harness" to be installed in the City's vehicles to maintain consistency in installation of equipment and ease in trouble shooting electrical problems. NO EXCEPTIONS.

iv. Vehicle buildout vendors who manufacture or fabricate parts specifically used on City builds shall offer those same parts for sale to other City vehicle buildout vendors at pricing that will afford the purchasing vendors a 20% optional price markup margin. The result of this margin if exercised will make the final sales price equal to the price the vendor who manufactured or fabricated the parts sells them to the City at. This pricing stipulation shall not deny the manufacturer or fabricator the ability to charge shipping or credit card fees on top of the 20% markup margin if required based on the terms of the transaction. This pricing shall apply only to vehicles being built for the City by the receiving vendor. No vendor shall unnecessarily deny or delay prompt availability of these parts to other City vehicle buildout vendors for use on City builds.

10. **EQUIPMENT:** The City reserves the right to have equipment/parts installed that are of equal design, form, fit, and function. The City reserves the right to specify or make changes on equipment for the duration of the Agreement.

B. OPERATIONAL SPECIFICATIONS

1. Contractor shall contact the City personnel to identify all vehicle service equipment/parts that will be stocked at the Contractor's location. This shall be accomplished within 30 days of the approved Agreement. This shall repeat itself every year and prior to the renewal of the Agreement. This is necessary to adjust for rolling stock changes within the City. By mutual agreement between the Contractor and the City, available inventory of equipment/parts shall be determined using expected weekly production output based on monthly or yearly vehicle installation projections.

2. The Contractor shall be committed to the "Maximum" production/delivery time required to complete the projected number of vehicle installations. The Contractor shall complete a single vehicle installation in five (-5) business days. The Contractor shall commit to a service satisfaction level (i.e.95%) and to make the necessary investment in "on-hand inventory of equipment/parts" and service personnel to maintain this Agreement. The Contractor shall monitor their local and back-up inventories on a regular basis and coordinate their replenishment orders with the supplying factory to take into account lead time and production schedules, and sales to other user agencies, and to ensure that the City shall be serviced in a proper manner to this Agreement.

3. **DELAYS:** If a delay is foreseen in the availability of any part, an accessory (of any type), or piece of equipment required to complete the vehicle installation as ordered by the City, or any of the above items that are normally considered an "In-Stock" inventory item, the Contractor shall give thirty (30) day prior written notice to the City. This notice shall detail the exact nature of the delay and the date of when the item will be received by the Contractor to be available in inventory and ready for installation. The City have the right to extend the delivery due date if reasons appear to be reasonable, at the sole discretion of the City. The Contractor must keep the City personnel advised at all times of the status of the delay. Default in "promised delivery" (without acceptable reasons) or failure to meet specifications, authorizes the City to purchase the parts, accessories, or equipment elsewhere and charge full increase in cost and handling to the defaulting Contractor.

4. **EQUIPMENT PICK-UP:** The Contractor shall notify the City, after the required equipment has been completely and successfully installed of the previously delivered City vehicle; and that this vehicle has successfully completed and passed functionality testing of the installed equipment prior to pick-up from the City. A delivery/check-out form, for each vehicle, shall also have been prepared, annotated, and ready for the vehicle pick-up inspection.

5. **SERVICE CENTER:** The Contractor shall have the ability and experience to service (Emergency Vehicle Lighting Equipment) upon commencement of the Agreement. The Contractor is not required to be an authorized manufacture warranty repair center, it is expected that the Contractor will handle all warranty claims.

6. **ALTERATIONS:** Any alterations to the specifications, without the written approval of the City personnel, will be considered not compliant and the City shall not pay for any unauthorized services.

7. **CONTRACT QUANTITIES:** The quantities in the Agreement are not guaranteed and are given for information purposes only to the Contractor. They do not indicate the actual quantity, which will be ordered, since such volume will depend upon requirements, which develop during the Agreement period. a. Quantities shown or discussed shall not be construed to represent any amount of which the City shall be obligated to purchase under the Agreement or relieve the Contractor of the obligation to fill all vehicle installation orders placed by the City. b. The City shall NOT guarantee any order of a specific quantity on any vehicle installation, type of vehicle installation, or vehicle strip-out. c. The City does not guarantee any amount of services or products to any vendor or vendors. If the Contractor is unable to perform to the requirements as stated in the Agreement, the City reserves the right to assign work to another Contractor in order to maintain City Vehicles for Public Safety at any time.

8. **WARRANTY:** Contractor shall provide a warranty that includes all parts and labor, which includes all repairs/services of equipment(s) under warranty, manufacture warranty or Contractor warranty. Contractor warranty for workmanship shall be for two (2) years. Contractor shall assume all responsibilities pertaining to shipping and handling of equipment that has to be sent back to the manufacture for repairs/services. In the event the equipment is beyond repair, a replacement of a brand-new equipment of the same model or equivalent shall be provided by Contractor. REMANUFACTURED equipment is not accepted.

9. **CONTRACTOR SITE LOCATION SECURITY:** Contractor shall provide site security at their location with no additional charge to the City. Site security shall be maintained 24 hours a day/365 day a year. All City vehicles that are in the possession of the Contractor shall be responsible for any and all damages while they are at the Contractor site. If any City vehicle is driven on public roads by the Contractor, they must have the proper insurance to be provided to the City and are responsible for any and all damages while in the possession of the Contractor. City vehicles that are outfitted with approved equipment shall be placed inside the Contractor 's building when the Contractor is closed.

C. CALIFORNIA STATE BOARD OF EQUALIZATION

1. The California State Board of Equalization ("BOE") has determined that labor charge for installing parts or accessories to a new vehicle is fabrication labor subject to sales tax. Pursuant to the 60 Day Rule, a vehicle is considered new if it entered the Contractor's facility for vehicle equipment installation within 60 days of the date the vehicle is registered with the California Department of Motor Vehicles ("DMV") as a new vehicle.

2. Based on the 60 Day Rule, City agrees to pay California sales tax to the Contractor on the labor performed by Contractor for installing equipment to new City vehicles during the term of this Agreement if the Contractor's invoice includes such sales tax. Contractor acknowledges and agrees that the City is not liable for any penalties and/or interests which may be owed by the Contractor to the State of California relating to sales tax. Within thirty (30) days of City's written request, Contractor shall refund the City any California sales tax that was paid by the City on labor performed by the Contractor for installing equipment to City vehicles if such vehicles entered the Contractor's facility for vehicle equipment installation after 60 days such vehicles registered with the DMV as new vehicles.

3. In regard to City vehicles entering Contractor 's facility for vehicle-equipment installation, the City agrees to provide the Contractor with a copy of the DMV registration as a new vehicle when available.
