Reference: Sole Source Product

Subject: IMFO Integrally Molded Flanged Outlet Tanks

Dear Rodney:

Thank you for the opportunity to provide the following letter confirming that our IMFO Storage Tanks are a sole source product. As you have discovered, there is no better vessel for storing Sodium Hypochlorite than the Poly Processing IMFO Storage Tank.

Core-Rosion Products has been the single source municipal distributor in Southern CA for Poly Processing since 1974. Their sales and engineering staff are some of the most competent and professional in the industry and a welcome partner in our success for over five decades.

Please don't hesitate to reach out to me if I can provide additional or more detailed information.

Sincerely,

Chris Sheppard
