TO: Honorable Mayor and City Council Members
FROM: Finance Department

2025-236

REQUEST FOR CITY COUNCIL ACTION

SUBJECT:

PUBLIC HEARING CONFIRMING THE DIAGRAM AND ASSESSMENT FOR LIGHTING MAINTENANCE DISTRICT NO. 2003-1 FOR FISCAL YEAR 2026

EXECUTIVE SUMMARY:

This staff report asks the City Council to adopt Resolution No. 2025-042. Adopting the recommended resolution is the last step of the annual proceedings for the levy and collection of the special assessment for Lighting Maintenance District No. 2003-1 for Fiscal Year 2026. The City Council will conduct a public hearing to allow all interested parties to make verbal or written comments on the proposed annual assessment.

At the conclusion of the hearing, it is recommended that the City Council adopt the resolution confirming the diagram and assessments for the District for Fiscal Year 2026. This will constitute the levy of the assessment for the maintenance and servicing of public lighting facilities within the District, in accordance with the Streets and Highways Code.

RECOMMENDED ACTION:

That the City Council adopt Resolution No. 2025-042, confirming the diagram and assessment for Lighting Maintenance District No. 2003-1 for Fiscal Year 2026.

BACKGROUND & HISTORY:

Lighting Maintenance District (LMD) 2003-1 was established in 2003 in accordance with the provisions of the Landscaping and Lighting Act of 1972 (the "1972 Act"). The district's purpose is to provide lighting, maintenance, and operating services for the streetlights, traffic signals, and related appurtenances within its boundaries.

The annual assessments proposed to be levied within the District will pay for the maintenance services during Fiscal Year 2026. The services provided include all necessary operations, administration, capital replacements, and maintenance to keep the above-mentioned improvements in a healthy and satisfactory working condition.

ANALYSIS:

The State of California Street and Highways Code Section 22500 requires an annual review of the assessments levied by the assessment districts formed under the 1972 Act. An Engineer's Report must be prepared to levy and collect special assessments within such districts, which provide details on the maintained improvements and the estimated budgets for each district.

On April 16, 2025, the City Council adopted Resolution No. 2025-022, to initiate the proceedings to levy and collect assessments for the District for Fiscal Year 2026, appointed Spicer Consulting Group, LLC as the engineer of record, and ordered the preparation of an Engineer's Report for the District.

On May 7, 2025, the City Council adopted Resolution No. 2025-031, to declare the City's intention to levy and collect assessments within the District for Fiscal Year 2026, approve the preliminary Engineer's Report (the "Preliminary Report"), and provide a notice of public hearing to consider the proposed assessments. A notice of public hearing was published in the local newspaper on May 23, 2025.

Attached is the final Engineer's Report (the "Report") for the District, consistent with the Preliminary Report. The Report includes a detailed description of the existing improvements within the District, the estimated maintenance costs, the method of assessment apportionment for each lot or parcel within the District boundaries, and a diagram showing the boundaries of the District. The Report also provides an analysis of the District's financial status.

FINANCIAL IMPACT:

The cost of construction, installation, operation, servicing, and maintenance of the District will be funded by the assessments levied and collected within the District. For Fiscal Year 2026, it is projected that the assessment revenues will be sufficient to cover the operating costs for the District during the same fiscal period. The estimated surplus will be added to the capital reserve for future capital improvements within the District.

Below is an overview of the District's estimated assessment revenues and proposed expenditures for Fiscal Year 2026. The attached Report provides detailed information.

Estimated Costs	Estimated Assessment Revenue	General Benefit Contribution (1)	Estimated Excess/(Deficit)	Actual Assessment YOY% Change
\$95,774.50	\$127,247.09	\$7,102.18	\$38,574.77	0.00%

¹⁾ Benefit received by non-residents of the District for the major/arterial streetlights, traffic signals, traffic control devices and landscape improvements. This amount is contributed by the City's General Fund.

ENVIRONMENTAL ANALYSIS:

This action is exempt pursuant to Section 15061(b)(3) of the Guidelines for the California Environmental Quality Act (CEQA), which states that a project is exempt from CEQA if the activity is covered by the common sense exemption that CEQA applies only to projects that have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. This action merely declares the City's intent to levy and collect assessments within the District for Fiscal Year 2026, and there is no possibility that adopting the resolution will have a significant effect on the environment. Therefore, no environmental analysis is required.
