

NORTHWEST MOSQUITO AND VECTOR CONTROL DISTRICT

2025 Updates

01

Lower Trap Counts

Lower-than-average temperatures have prevailed throughout the year which has resulted in lower mosquito abundance

02

Landscape Maintenance

Technician's have been working with the city and landscape companies to repair broken water boxes

03

Service Request

To date, the District has handled 367 service requests: Mosquitoes-108, Rats-83, Bees-125, Fish-29, and Other-22
*68% lower compared to the 5-year avg.

THANK YOU
