3.2.12 Payment Bond. The California Department of Industrial Relations (“DIR”) has communicated to the City that there is a possibility that a payment bond may be required for certain services provided in connection with a public works project. Since such a requirement is currently contrary to the industry standard for the services provided by Consultant under this Agreement and since there is no direct legal authority for this position, the City is not requiring Consultant to provide a payment bond at this time. However, the City hereby reserves the right to require the Consultant to obtain and provide a payment bond for some or all of the Services provided by the Consultant under this Agreement.

If the City determines that a payment bond is required for the Services pursuant to Civil Code Section 9550 or any other applicable law, rule or regulation, Consultant shall execute and provide to City a payment bond in an amount required by the City and in a form provided or approved by the City. City shall, within 30 days of receiving such statement, review the statement and pay all approved charges thereon.

3.3.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City.

3.3.4 Extra Work. At any time during the Term of this Agreement, City may request that Consultant perform Extra Work. As used herein, “Extra Work” means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from City’s Representative.

If the Services are being performed as part of an applicable “public works” or “maintenance” project, as defined by the Prevailing Wage Laws, and if the Total Compensation is \$1,000 or more, Consultant and its subconsultants shall fully comply with the Prevailing Wage Laws for their employees and any others to whom such laws are applicable. Consultant and its subconsultants shall also be responsible for any and all violations and fines imposed on them pursuant to the Prevailing Wage Laws. Pursuant to SB 854, which amended the Prevailing Wage Laws, this Agreement would also be subject to compliance monitoring and enforcement by the California Department of Industrial Relations (“DIR”). Beginning April 1, 2015, no consultant or subconsultant may be awarded this Agreement unless registered with the DIR pursuant to Labor Code Section 1725.5. The City will report all necessary agreements to the DIR as required by the Prevailing Wage Laws. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant’s principal place of business and at the Project site. It is most efficient for the Consultant to obtain a copy of the prevailing wages in effect at the commencement of this Agreement from the website of the Division of Labor Statistics and Research of the DIR located at www.dir.ca.gov/dlsr/. In the alternative, Consultant may obtain a copy of the prevailing wages from the City’s Representative. Consultant shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.3.6 Apprenticeable Crafts. If the Services are being performed as part of an applicable “public works” or “maintenance” project, as defined by the Prevailing Wage Laws, Consultant shall comply with the provisions of Section 1777.5 of the California Labor Code with respect to the employment of properly registered apprentices upon public works when Consultant employs workmen in an apprenticeable craft or trade. The primary responsibility for compliance with said section for all apprenticeable occupations shall be with Consultant.

3.4 Termination of Agreement.

3.4.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at

least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, as well as any authorized reimbursable expenses, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause.

3.4.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.4.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.5 Ownership of Materials and Confidentiality.

3.5.1 Documents & Data; Licensing of Intellectual Property. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of five (5) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. In addition, before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.5.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. EXHIBIT "A" SCOPE OF SERVICES

1. PROJECT DESCRIPTION

Introduction and General Information:

A Quiet Zone is an at-grade railway crossing that has been fortified with safety features to mitigate the requirement that approaching trains use their horns at these crossings. Quiet zones have been used as a noise mitigation measure for communities impacted by these crossings. Staff researched Corona's railroad crossings and contacted neighboring agencies that have implemented Quiet Zones. An in-depth feasibility and cost estimate per crossing requires that staff contract with a consulting firm familiar with Quiet Zone design.

The City of Corona City Council has approved the development of quiet zones to address routine horn noise at grade crossings throughout the City. The City solicited proposals for professional services from a qualified engineering firm to develop a feasibility study for the establishment of Quiet Zone along the City's railway corridors. The City of Corona has eight at-grade crossings with intersecting streets; six located at Burlington Northern Santa Fe (BNSF) San Bernardino Subdivision mainline locations and two at spur crossings. The locations of the at-grade crossings are listed below and shown on the Exhibit "A".

BNSF Railroad San Bernardino Subdivision At-Grade Crossings

| At-Grade Crossing | Crossing Number |

| Smith Street | 026530P |
| Railroad Street | 026529V |
| Cota Street | 026527G |
| Sheridan Street | 026526A |

2. SCHEDULE OF PERFORMANCE

Consultant shall complete the work within (180) calendar days following the date of the Notice to Proceed.

3. THE FOLLOWING PRESENTS THE SCOPE OF SERVICES FOR THE QUIET ZONE FEASIBILITY STUDY

A. Task Description

The consultant shall achieve the City's Quiet Zone Feasibility Study objectives by completing the following tasks:

Quiet Zone Study

- Project Meetings
 - Kickoff
 - Bi-Weekly Status
 - City Council or Committee meetings (as required)
- Project Schedule with Bi-Weekly updates
- Data Collection
- Quiet Zone Analysis and Calculated Quiet Zone Risk Index (QZRI)
- Conceptual Designs
- Diagnostic Meeting with Railroad and City Staff
- 30% Design Plans
- Cost Estimates for each location
- Draft Report
- Final Report
- Presentation of Final Report to City Council

The City is primarily interested in the mainline crossings for inclusion in a quiet zone, however, the City wishes to consider the spur crossings as an alternate proposal for inclusion in the project.

B. Consultant Personnel Requirements.

- Consultant is required to have completed similar scopes of work for neighboring agencies and have experience with BNSF Railroad requirements for quiet zones including but not limited to BNSF's permitting. Consultant team must represent the City's interests and manage any potential conflicts of interest.
- Railroad Protective Liability insurance is required for the successful Consultant. The policy shall cover any of the Consultant's staff/personnel and relevant subconsultants who will perform any work that involves personnel, vehicles or equipment inside the railroad right-of-way. Consultant must demonstrate they can meet insurance requirements either through a current policy or through a letter of commitment from both the Consultant and their insurance provider, pending award of this contract to provide the required insurance policy. There will be no specific line item covering the additional costs of this insurance policy, it is at the discretion the Consultant to identify how to recuperate any additional costs. Execution of the Professional Services Agreement and issuance of a purchase order and the Notice to Proceed will be withheld until the Consultant

demonstrates they have procured an insurance policy consistent with the RFP and any Addendum requirements.

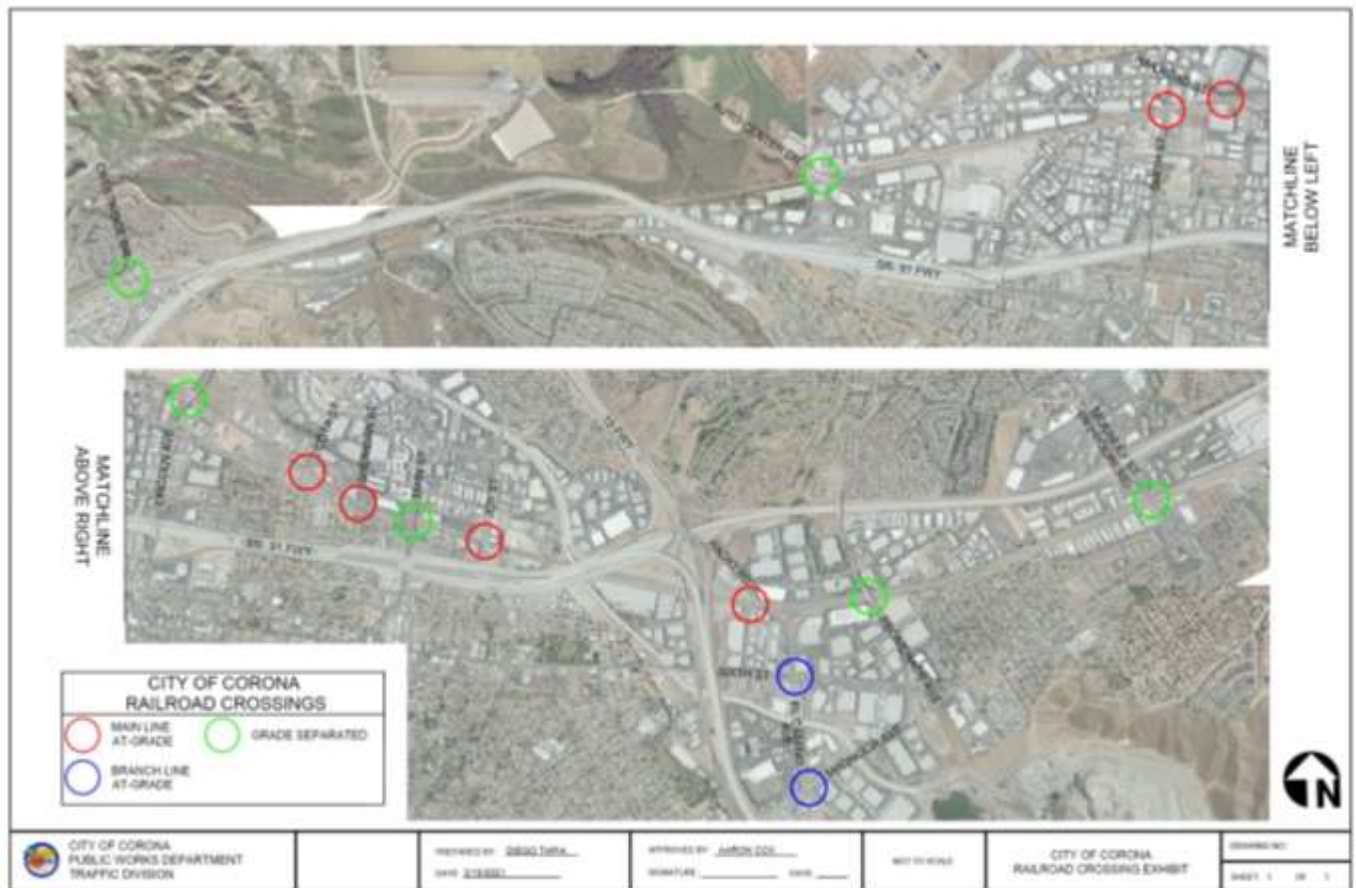

- Professional Engineering License (Civil) is required from the Consultant.

C. City Responsibilities.

The City will make available any relevant record drawings, studies, etc., to the consultant. City will designate a Public Works Traffic Engineering contact for project oversight and coordination.

D. Exhibits.

Exhibit A – City of Corona Railroad Crossing Exhibit

In addition to the Scope of Services identified in Exhibit A above the Consultant shall complete the following Task Items 1-3 listed below:

Task 1: Pre-Study/Existing Conditions

Task 1.1 – Project Administration, Meetings and Coordination

- Consultant will attend one kickoff meeting and begin with biweekly project coordination/status meetings with City staff. Consultant will also attend strategic City Council and Committee meetings that may be required. This task assumes a total of eight (8) meetings.
- Consultant will prepare a baseline project schedule that will be updated and discussed during bi-weekly meetings. This task includes monthly invoicing and progress reports.

Task 1.2 – Research/Data Collection/Field Review

- Consultant will gather available data consisting of correspondence, studies, plans and CAD files related to the existing conditions at the applicable grade crossings along the BNSF railroad corridor. Consultant will obtain data from FRA, CPUC, BNSF, SCRRA and the City. Consultant assumes that current information, such as as-built plans and other data obtained from the City, will be made available by the City at no cost to consultant.

•

Task 1.3 – QZ Analysis/Quiet Zone Risk Index

- Consultant will begin analysis by calculating the quiet zone risk index (QZRI) of existing conditions at the subject crossings utilizing the Federal Railroad Administration's (FRA) calculator. Consultant will calculate QZRI's for the following scenarios:
 - Existing Conditions
 - Proposed Conditions
- Consultant will analyze combinations of options that will allow the Quiet Zone to be implemented, while minimizing (as much as practical) the impact on adjacent landowners, businesses and other users of the roadway network. These alternatives will consist of:
 - No improvements at specific crossings (if applicable).
 - Cost Effective Supplemental Safety Measures (SSM's) – Raised Median Islands
 - Applicable Alternative Safety Measures (ASM's)
- Consideration will also be given to where existing horn blowing is taking place to determine other low-cost measures that can be implemented, if applicable. Uniquely relying on its former role representing SCRRA/Metrolink in the City of Corona, Consultant will conduct a pre-diagnostic review to fully assess the likely improvements to be required by Metrolink and CPUC. This step is essential to adequately define the proposed improvements and develop an effective strategy prior to meeting with Metrolink and CPUC.

Task 2: Analysis/Feasibility Study

Task 2.1 – Draft Conceptual Plans

CA\DD\02000.50101\1401461.15

- Consultant will prepare draft conceptual exhibits, in AutoCad or MicroStation, illustrating existing and proposed grade crossing SSM improvements. This includes an assessment of the potential need for pedestrian crossings. The design plans will be prepared in accordance with City and BNSF design standards as well as applicable CPUC and California Manual of Uniform Traffic Control Devices (MUTCD) requirements.

Task 2.2 – Conceptual Cost Estimates

- Consultant will prepare conceptual cost estimates detailing construction, maintenance, permitting and other related grade crossing and quiet zone improvement costs.

Task 2.3 – Field Diagnostic Meeting

- Consultant will conduct one field diagnostic meeting with the City, CPUC and BNSF to present the conceptual designs prepared in Task 2.1 and field verify crossing and equipment conditions as well as obtain diagnostic recommendations (e.g., pedestrian treatments) for proposed quiet zone measures and crossing improvements.

Task 2.4 – Draft Quiet Zone Assessment Report

- Consultant will prepare a draft quiet zone assessment in technical memorandum format outlining the existing and proposed improvements (i.e., active warning device protection, supplemental safety measures, etc.), project requirements, process, anticipated stakeholder requirements, permitting requirements, estimate of probable construction cost and anticipated project schedule.

Task 3: Final Report

Task 3.1 – Final (30% Level) Conceptual Plans

- Based on recommendations generated in Task 2.4, Consultant will revise the draft conceptual plans and develop the final conceptual plans to serve as the basis for preliminary and final design.

Task 3.2 – Public Meetings/Presentations

- Upon completion of Task 3.2 and confirmation that the required quiet zone improvements are feasible, Consultant will assist the City to present the proposed concepts to local community stakeholders. This task assumes the preparation of graphics and a PowerPoint presentation for presentation to the following City Meetings:
 - City Council

Task 3.3 – Final Quiet Zone Assessment Report

- Consultant will finalize the quiet zone assessment, in technical memorandum format, outlining the existing and proposed improvements (i.e., active warning device protection, supplemental safety measures, etc.), project requirements, process, anticipated stakeholder requirements, permitting requirements, estimate of probable construction cost and anticipated project schedule. Each assessment element will be updated to reflect agency review comments as well as diagnostic review comments.

Deliverable(s):

Six (6) copies of the final quiet zone assessment outlining project requirements including conceptual exhibits and costs for each crossing.
